

CUSTOMER SUCCESS STORY

# State Gallery Stuttgart

Amazingly good speech clarity with  
SpeechLine Digital Wireless

## Challenge

The sound technology in the lecture hall of the Staatsgalerie Stuttgart state gallery was out of date and needed to be renovated with modern components. The complex cabling of the fixed speakers and the completely wired microphones took up an immense amount of time during events, with the cables also creating potential tripping hazards.

## Solution

Fixed loudspeakers installed on the ceiling and a Sennheiser SpeechLine digital wireless microphone system enable particularly simple operation in the lecture hall, a neat impression and excellent speech clarity.

“The new Sennheiser SpeechLine DW wireless links represent a significant improvement in terms of sound compared with the previous set-up. Hissing or static is not an issue, and speech is always clear and easy to understand – a neat solution!”

Erik Katzer, Managing Computer and media technology Staatsgalerie Stuttgart
